# Green fingers?

Or just want to help out with  
a community project?

## Then get involved in SHYPP's 'planting pots project'

Get your fingers dirty this spring by planting pots for communities. This spring SHYPP will be going around different community spaces giving them a little TLC, and we need help from you.

If you want to do your bit, no matter how big or small, contact Lu on 07970960680 or speak to your support worker.
